

# Young Engineers Club 2023-2024

Dear parents,

We are excited to announce that our school has become a part of the **Let's Start Up** network, connecting with **advanced engineering clubs**. Our new Young Engineers Club, designed **for ages 5-10**, will provide an enriching experience for your children beyond regular school hours. This club aims to equip students with comprehensive insights into mechanical engineering, and electrical engineering, and more. Through engaging in intricate engineering projects, your children will have the opportunity to enhance their skills and knowledge.

**Approved by engineers  
and aligned with international standards**

Real-World  
Discovery

Cool final  
project

Comprehensive  
Learning

Personal  
engineering kit

This Semester's Highlight:

**Racing Car**
